TWO-WAY RADIOS

GP344: The Small Popular Radio

The Small Popular Radio is the simple two-way radio solution for professionals who need to stay in contact. The GP344 can easily increase productivity by keeping users communicating, yet streamlines their radio use allowing them to concentrate on the job at hand. With the Popular Radio, communication couldn't be easier.

Operator friendly controls and features include:

- **Signalling**
The radio software encompasses Private Line™ and 5-tone selective signalling.
- **Channel Scan**
Allows activity on different communications channels to be monitored and answered.
- **X-Pand™ Voice Compression and Low Level Expansion**
Crisp, clear and strong audio quality in virtually any noisy environment. Low level expansion allows further improvements in audio quality by reducing noise usually heard during pauses in conversation.
- **Voice Operated Transmit (VOX)**
Hands free operation when used with VOX headset accessory.
- **Adjustable Power Levels**
The radio output power has two settings - low power extends battery life and high power allows the radio to transmit over a greater distance.
- **Emergency Signalling**
Sends a help signal to a pre-defined person or group of people.
- **Programmable Channel Spacing (12.5/20/25 KHz)**
Flexible and easy migration of channel spacing requirements in any situation.
- **Lone Worker**
Added security and safety for individuals who work remotely from their team. The radio enters emergency mode if the user does not respond to the warning signal.
- **Talkaround**
Freedom to communicate utilising a system or dispatcher for wide area coverage, or bypass and talk directly to another unit for easy local unit-to-unit communications.
- **Whisper**
Allows a user to speak quietly into a radio and still be heard clearly.
- **Call Forward**
Allows calls to be forwarded to another radio user if you are unable to answer your calls personally.
